1.1.12
a Lesson in the University of The New Covenant
Theodore Cottingham, May 8, 2003

1. I love you. I love you Ted. I love you.

2. Think it not strange the fiery trials that came to test you, to test you, to test you, of Me, and what of Me was in you. Think it not strange. Think. Think of My ways and My words. Think on Me. Think on Me and keep Me in your mind says the Lord. Keep Me, keep Me with you, close to you, in your heart and your thinking and realize I want to be kept close.

3. Even in the times I seemed so far away and you cried and you didn't know what to do next, you didn't know how to handle the people, situations and circumstances you found yourself in, at times you cried out to Me. You cried tears. You cried out verbally, vocally, sometimes yelling at Me in your pain and distress.

4. But Ted, I was there. I was there. I was right there with you. As close, just as close as I am to you now even as you write My words. Even now as you feel my joy with your perseverance to press in to Me and know Me and not give up on Me.

5. I am that I am and I am says I see every pain, every distress, every quandary, every problem, and I am there. If I did everything for you, you would not mature. You would not grow up and advance and conquer kingdoms. You could not do warfare and exploits.

6. My people are an army though so many don't want to fight. So many don't want to fight the enemy even on the lowest level. Tell them Ted. Tell them. You already know this and you've mentioned it in the past but it must be in the forefront of what you teach. Ted, I'm not kidding. Tell them, teach them, lead them. Help them understand their role in the kingdom is to persevere and grow and mature and fight and conquer. Conquer doubt, conquer temptations that delay, divert and cast down people into hopelessness. I am Hope. I am God. I am Me and there is hope because I am.

7. I am loves My people and I want them to know Me and love Me more and grow and mature and walk by My side and when they must fight, they are ready.

8. They must know the scriptures Ted. They must know what I have already given them in the way of written instructions. They must learn at My knee and they must learn of Me. They must come before Me with My word and let Me explain what it means and how it applies to them in their circumstances. They must become more skillful in the mastery of My Word.

9. So many talk of self-mastery and you have spoken of mastering a set of material, as when people study their studies in college. People, My people, My people must realize, grasp, and understand deeply that I want to teach My people My words. I am revelation and I will reveal to them the treasures in My kingdom if they will come, come,

come to Me, and value what I value, do what I do, say what I say to them, grow in My systems and ways of operations.

10. I am and I am is on the move. There is much movement now. There is much movement and there is much warfare. Tell them Ted, tell them. Tell them I am singing and I am moving and I am looking for those I can trust, those that will come to Me that I can raise up, raise up in leadership, raise up as captains and generals and leaders of tens and twenties and hundreds and more.

11. Tell them it is now and not to wait until turmoil surrounds them in a state that immobilizes their ability to seek Me. So many will scurry about here and there, to and fro, and think I have fallen off My throne, not realizing that I am doing this. I am shaking and I will shake everything that can be shaken so that only what can't be shaken remains.

12. You're right. You're right, even what you wrote in 1977 about the coming polarization is right. It was from Me and you knew it then and how I gave you that word. I was testing you even then to see if you'd write My word as I gave it to you. You had no idea the value of what you did that moment, those moments, of writing those few pages.

13. Now go, paint your house, smile, be cheerful and deeply happy for what I am doing in you and your family. I have provided much and you will enjoy fruits of your labors and fruits of your rest and fruits of your seed forevermore.

14. Thank you Ted for coming to Me and letting Me speak and writing whatever I give you, whether it makes perfect sense to you or not. I will guide. I will guide. I will guide and write Me on your heart as you write My words for the world, for those with you, and those that come behind you.

15. I smile. I smile. I smile Ted, when you come to Me with your pen and paper and allow Me to write. Thank you sir, thank you.

16. Now go and grow and honor all those around you, even those who you know are wrong and without Me, without wisdom, and the immature in Me, honor them, honor them all. Respect them. I operate with honor and respect, honor and respect, honor and respect. No dishonor.

17. Now go and grow and enjoy Me and all I've provided.

18. More later, 'eh?

Dad
